STILLNESS IN ARCHITECTURE

SOFT LIGHT MEETS SHADOW
OUR CURATED STILLNESS SOOTHES
THE CALM FEELS LIKE HOME

- JACOBS

Jacobs is a world-leading design force helping turn the UAE's boldest visions into the destinations of tomorrow.

Designed by Jacobs, Sei Saadiyat is arranged around landscaped courtyards, with the tallest tower rising 17 floors above ground level. Its architectural approach is centred on stillness, expressed through the relationship between the buildings, the courtyards and changing light.

Throughout the day, the façades respond to light and shade, bringing different levels of softness and warmth to the spaces from morning to evening. From select upper-floor residences, views extend towards the district's museums, the Arabian Gulf and the Abu Dhabi skyline.

Jacobs

"WHAT MAKES SEI SAADIYAT SPECIAL IS HOW ALL THE ARCHITECTURAL ELEMENTS WORK TOGETHER. THE ELEVATED GARDENS, DIFFERENT LEVELS AND PLAY OF LIGHT AND SHADOW GIVE THE BUILDINGS THEIR OWN CHARACTER."

MAHMOUD HUSSEIN, SENIOR PROJECT MANAGER

"YOU CAN TURN INWARD WITHOUT LOSING SIGHT OF WHERE YOU ARE. SAADIYAT CULTURAL DISTRICT IS ALWAYS THERE, HELD IN THE VIEW."

NEMANJA VUCKOVIC, PRINCIPLE ARCHITECT

Kettle Collective shaped the interiors around natural materials, balanced proportions and simple forms. A consistent design language connects the residences and shared spaces.

This comes through in the use of natural materials, such as stone, which change subtly over time and gradually reveal more character. Together, these smaller details create a more grounded environment, helping residents feel present in the moment.

"THE SENSE OF BALANCE COMES NOT FROM ONE DEFINING FEATURE, BUT FROM HOW TRANSITIONS, TEXTURES, PROPORTIONS AND MOMENTS OF CONTRAST WORK TOGETHER."

STILLNESS IN LANDSCAPING

STILLNESS SETTLES HERE
LIGHT MOVES THROUGH LEAVES AND WATER
NATURE SHOWS ITSELF

- JACOBS

Jacobs brings its global expertise to Sei Saadiyat, creating a landscape that connects architecture and nature through planting and a sensory experience.

At Sei Saadiyat, the landscape is designed as a journey of discovery, gradually revealing pockets of activity, connection and retreat.

Social and active spaces are balanced by secluded gardens, shaded hideaways and moments of pause that invite reflection and escape. The Discovery Trail, a key feature of the landscape vision, winds through changing terrain and layered planting, with commissioned art creating moments of discovery along the way.

Inspired by its setting within Saadiyat Cultural District, planting, water, natural materials and framed views form a restorative landscape that encourages residents to wander, slow down and reconnect.

Jacobs

“WE DIDN’T ASK WHAT NATURE SHOULD LOOK LIKE. WE ASKED HOW IT SHOULD MAKE PEOPLE FEEL. THAT BECAME THE STARTING POINT FOR EVERY PART OF THE LANDSCAPE AT SEI SAADIYAT.”

ESLAM ABEED,
ASSOCIATE DIRECTOR LANDSCAPE ARCHITECT

STILLNESS IN MATERIALS

Stone brings permanence, wood adds warmth, metal brings definition and woven finishes introduce texture. Natural variations remain visible, allowing each material to develop character over time.

This attention to materiality continues in the border tiling, sourced from Japan and featured throughout the residences as a subtle expression of quiet, considered craftsmanship.
